

MCHRI PRESENTS

IMPLEMENTATION & HEALTHCARE IMPROVEMENT MASTERCLASS

MANAGING CHANGE FOR DIRECT
HEALTH IMPACT

OCTOBER 10 & 11, 2019
MONASH MEDICAL CENTRE

THE MASTERCLASS

Much has been written about the quality chasm in healthcare; the gap between our knowledge and our practice.

Join us for a two-day course that will 'unpack' how implementation science combines scientific disciplines to help explain approaches that enable people to adopt change in complex health systems.

Aimed at health professionals, researchers and students, policy makers and front-line clinicians who seek guidance and inspiration on healthcare improvement.

During the masterclass, we will review conceptual frameworks and explore core implementation components and demonstrate how implementation science can be combined with healthcare improvement to improve outcomes for service users and the community.

FACILITATORS

Hear from internationally renowned experts on innovative means to improve the healthcare system as they provide an overview implementation science approaches, evaluations, stakeholder engagement and co-design of implementation projects with service users.

- **Professor Danny Liew**, Chair of Clinical Outcomes Research, Head of Division of Clinical Epidemiology and Director of the Centre of Cardiovascular Research and Education at the SPHPM, Monash University and consultant physician at the Alfred Hospital.
- **Professor Helena Teede**, Director of Monash Centre for Health Research and Implementation at the SPHPM, Monash University, Executive Director of Monash Partners Academic Health Science Centre and endocrinologist.
- **Professor Helen Skouteris**, Monash Warwick Alliance Professor of Healthcare Improvement and Implementation Science at Monash University.
- **Associate Professor Susannah Ahern**, Head of the Registry Sciences Unit, Course Co-ordinator of the Masters of Health Services Management and Academic Lead for the Australian Cystic Fibrosis Data Registry.
- **Dr. Tracy Robinson**, Senior Research Fellow at MCHRI, SPHPM, Monash University, Honorary Associate Professor at Warwick Business School, University of Warwick and currently leads the development of workforce and education programs at MCHRI.
- **Dr. Bengianni Plizzirani**, Research Fellow in Healthcare Innovation, Implementation and Evaluations, at MCHRI, SPHPM, Monash University.

COST

Monash Partners Member Organisation
Employees: \$780

Non Monash Partners Member Organisation
Employees: \$980

Students: on application.
