

Designs released for Cranbourne Community Hospital

Julia Oxley, General Manager, Community

Cranbourne Community Hospital Site

Cranbourne will help take the pressure off major hospitals such as Casey Hospital. This will enable the major hospitals to focus on critical care, complex surgeries, emergencies and trauma.

Cranbourne Community Hospital

Located at the Casey Complex on
Berwick – Cranbourne Road

Finalising design development

Managing Contractor engaged by
the Victorian Health Building
Authority to deliver

**Early works construction:
commenced December 2021**

Doubling our space

Indoors

- Around 9200 square metres, built over 3 storeys
- Carefully considered to create a safe and welcoming environment.
- Waiting and reception areas will 'bring the outside in' using natural light and plants.

Outdoors

- First Nations garden
- Nature play area
- Quiet healing garden

Cranbourne Day Surgery 6 theatre complex floor plan

Benefit the patients and the community we serve

Benefits for the patient:

- Bring excellent care closer to home
- Increase service capacity in the fastest population growth corridor.

Benefits for the community:

- Increase training capacity particularly for ophthalmologists and nurses
- Decentralise training of health care professionals with the hope to increase regional workforce.

Pauline Richards and Martin Foley Turning the Soil for the New Cranbourne Community Hospital 21 Dec 2021
